PROJECTS

[Unplugged Retreat](#) | HTML5, CSS3, Flexbox, Github, Photoshop
3-page Skillcrush class project with the home page, FAQ page, and About Page to represent a touring company. I employed responsive web design and media queries to reflect the site on different media screens.

[GitHub Repo-Gallery](#) | HTML5, CSS3, Flexbox, Responsive Web Design, Javascript
A gallery of my GitHub repositories as a fulfillment of a Skillcrush class project with a search button to locate specific repositories. A public GitHub API was used to fetch the data.

[The Sticky Note App](#) | Reactjs, Code Sandbox
For my Skillcrush class project, I forked the HTML and CSS to create the user interface which allows users to create new notes, delete, edit, and search for notes depending on their needs.
